Metasploit framework Course

1. Ethical hacking basics
2. Metasploit Basics
3. Metasploit Interfaces
a. msfconsole
b. msfcli
c. armitage
4. Metasploit Utilites
5. Penetration basics
6. Metasploit usages
a. auxilary modules
b. exploit modules
c. payloads
7 Intelligent gathering
8. Exploitation kung-FU
a. client side exploits
b. browser based exploits
c. dll hijecking exploits
d. server based exploits
9. Advanced exploitation
a. types of payloads
10. Multiencoding and AV evasion
11. Meterpreter scripting
12. Post exploitation
13. Auxilary modules
14. Social engineering toolkit
15. Fasttrack
16. Sql injections
17. Karmetasploit
18. Post exploits to metasploit
